

# UNICITY ENJUVENATE

Although our vitality tends to decline with age, we don't have to sit back and let it fade away. Diet has a profound effect on our sense of well-being and energy, and certain natural substances can help our aging bodies rejuvenate and renew themselves. People with lower levels of key body substances seem to age faster.

Enjuvinate is a unique anti-aging nutritional formula featuring three proprietary complexes that positively affect the body's natural production of substances that help us feel younger. These substances affect every aspect of

human activity, including sexual function, metabolism, and mood.\*

Supports the body's production of natural hormones.\*

Stimulates the body's ability to form lean muscle mass.\*

Assists in slowing the aging process.\*

Supports the body's natural production of important biological substances.\*

## BENEFITS
